PRODUCTION AND SHIPPING:

All of the firm's products are shipped, factory-fresh, from plants across the United States. At times, and on larger orders, its products may be shipped from the Far East. Most orders have a 5-15 work day production schedule, except on larger orders which are not shipped from the U.S. Also, depending on the season and inventory, all orders are subject to inventory levels of a particular color and style. Transit time, within the U. S., usually takes 3-5 work days by ground service. With that in mind, it's best to plan to order early as possible in order to get the products, colors, and in-time delivery.
